

MiSeq Sequencing

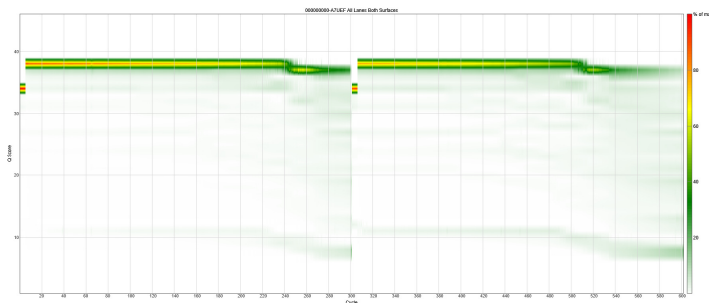

Service Highlights

- Fast, Hassle-free Service
 - Obtain sequencing data within one week of sample submission
- Stringent Quality Controls
 - All samples are validated to ensure high quality libraries
- Low Input Requirements
 - We can accept libraries below 2nM.
- Customized Sequencing Runs
 - Set up runs with custom primers, variable read lengths, low diversity

Fast, Reliable and High Quality Next Generation Sequencing

Level	Yield Total (G)	Projected Total Yield (G)	Yield Perfect (G)	Yield <= 3 errors (G)	Aligned (%)	% Perfect [Num Cycles]	% <= 3 errors [Num Cycles]	Error Rate (%)	Intensity Cycle 1	% Intensity Cycle 20	% >= Q30
Total	15	15	0.1	0.1	0.9	63	93.4	1.18	240	90.6	83.8

Example Illumina MiSeq v3 2x300bp sequencing run generated by SeqMatic
