## Bulk RNA Sequencing Services

Stress-free services for Bulk RNA workflow needs

### Service Highlights

**Comprehensive Services** - RNA workflow services include cell pellets or tissue extraction, library generation, sequencing, and data analysis

**Expert Volume Handling** - From small projects with low input to large scale projects with high-throughput

**Prepared Libraries From Difficult Samples** - We have experience working with low input, cfRNA, si/miRNA, archival, non-model organisms, blood, FFPE, etc.

**Wide Range of Sample Types** - human, animal, plant, fish, bacteria, yeast, viruses, environmental material

**Bioinformatics** - Full suite of standard and custom pipelines available for individual project needs, including support for non-model organisms

**Sequencing Platforms** - NovaSeq 6000 and NovaSeq X Plus

### Bulk RNA Processing

#### Extraction

#### Library Prep

Illumina

**PROPEL**

certified™

## Flexibility and Convenience

Your S.F.  
Bay Area Advantage!

SeqMatic's premium "Fetch-Seq™"  
courier pick-up in the S.F. Bay Area

Fast, Reliable And High-Quality Bulk  
RNA Library Preparation And  
Sequencing Services
