

Outsource Your Workflow

Scalable scRNA Services Made Simple

If in-house resources are scarce
to optimize Evercode™ single cell SOP's,
outsourcing is a great option!

The Advantages Of Outsourcing

Certified Provider

Full Evercode workflow completed by trained & certified scientists.

Confidence in Results

Improve reproducibility and eliminate variables such as learning-curve and technique.

Resources

Space, time & people are precious resources in a laboratory - use ours!

Service Highlights

- SeqMatic supports all stages of the Parse Evercode workflow. We accept fresh or frozen cells & tissue; fixed cells & tissue; or prepared libraries ready for QC & sequencing.
- Bioinformatics services are also available.

The SeqMatic Difference

- Compare Parse Evercode Fixation with other single cell technologies.
 - Unbiased side-by-side comparative data
- Fast Turn-Around-Time
- Expert NGS Consultation
- Science-First Approach to Optimal Solutions

Cell Fixation
