## CLIA-licensed / CAP-accredited Laboratory

Comprehensive validation services for all CLIA-regulated environment needs

### Service Highlights

#### Equipped For Services In A CLIA Environment

- Our laboratory can validate your assay, as well as research (RUO) projects with CLIA environment requirements for NGS, histopathology, and other omics data

**One Partner From Bench-To-Clinic** - Support from drug development through clinical trials. We offer assay validation and accept validated assays.

- High Complexity Laboratory Testing: Clinical Laboratory Improvement Amendments (CLIA)
- Accreditation: College of American Pathologists (CAP)
- Regulation: Center for Medicare and Medicaid Services (CMS)

**HIPAA Compliant** - We treat all customer information, study-related data, and intellectual property with care and security.

**Premium White-Glove Services** - Expert NGS consultation; fast turnaround times and a science-first approach for optimal solutions.

CLIA ID: 05D2219133

California State ID: CDF-90003594

CAP ID: 9056121
